CREW SAVED, IS REPORT FROM TOKIO

**Japanese Cruiser Struck An

**SECRECY PERVADED

BECAUSE OF NEUTRALITY

Of United States, Upon the Theory That Information of Helpless Condition of the Warship Might Have Been Useful to the German Naval Forces Now In Proximity.

Washington, Feb. 5.—Rescue measures for the Japanese cruiser Asama, ashore and breaking up on the Lower California coast, were cloaked in secrecy here today to protect the neutrality of the United States.

On the theory that information of the disabled Japanese ship might become of value to German men-of-war in the Pacific, the navy department kept secret its latest despatches from Rear Admiral Howard, commander of the Pacific fleet, sent from his flagship the cruiser San Diego in the neighborhood of Eusebada, and refused information of the movements among men-of-war going to the Asama's aid. It was believed here however, that first aid would be given by the cruiser Raleigh. The San Diego, crippled by a recent boiler explosion, would be unable to make fast time to the wreck near Turtle Bay.

**OFFICIAL REPORT
ALL OF CREW ARE SAVED.**

Tokio, Feb. 5.—An official report received in Tokio on the loss of the Japanese cruiser Asama off the western coast of Lower California, says that all the officers and members of the warship have been saved.

The Asama struck an uncharted rock off the northwestern coast of the Mexican republic. The extent of the damage to the steamer is not known, nor can anything be said as to the probabilities of saving her. The absence in Tokio of direct news from the Asama suggests that her wireless has been disabled.

The casting away of the Japanese cruiser Asama was reported to Washington by Rear Admiral Howard, commander of the American Pacific fleet. In this report the number of men on board the Japanese vessel was placed at 500.

**ELDER ROCKEFELLER
ON WITNESS STAND.**

New York, Feb. 5.—At the conclusion of Mr. Carnegie's testimony before the committee on industrial relations this afternoon, John D. Rockefeller, Sr., entered the room and demanded to be heard as a witness. He was placed on the stand.

Norris Hillquit, Socialist leader, had preceded Mr. Carnegie on the stand. His first declaration, on resuming the reading of his statement, interrupted yesterday by adjournment, was that the investigation by the Rockefeller foundation into industrial relations at the time the government was conducting its own investigation was "one of the most arrogant challenges ever issued by an individual against the government and the people."

AUSTRIANS RESUME OFFENSE.

Geneva via Paris, Feb. 5.—Hostilities against Serbia have been resumed by the Austrians, according to reports received here from sources which usually have been well-informed.

**CARNEGIE SAYS HIS
BUSINESS IS TO DO
ALL THE GOOD HE CAN.**

(Associated Press Telegram.)
New York, Feb. 5.—Andrew Carnegie on the witness stand today before the federal industrial relations commission testified that up to the close of 1914, his donations totalled \$324,657.39.

"I think myself in nothing else so happy, as in remembering my dear friends to whom I owe so much," said the iron master.

After Mr. Carnegie had settled himself in the witness chair he was asked what his business was.

"My business," he replied, "is to do all the good in the world that I can."

Democratic Leaders In Senate Have New Plan To Save the Shipping Bill

(Associated Press Telegram)

Washington, Feb. 5.—Democratic leaders in the senate, in a further effort to save the administration ship purchase bill, were today considering new lines of action. Outnumbered by the opposition, the majority leaders yesterday failed to carry out their plan to recommit the bill with instructions for amendment.

The new plan under consideration is to recommit the bill without instructions so as to bring it up again on a motion to discharge the committee if it failed to return the measure with amendments recommended by the caucus. Some of the leaders favor this plan if assured of enough votes to carry it.

Charges of Fraud In Senatorial Elections Will be Investigated

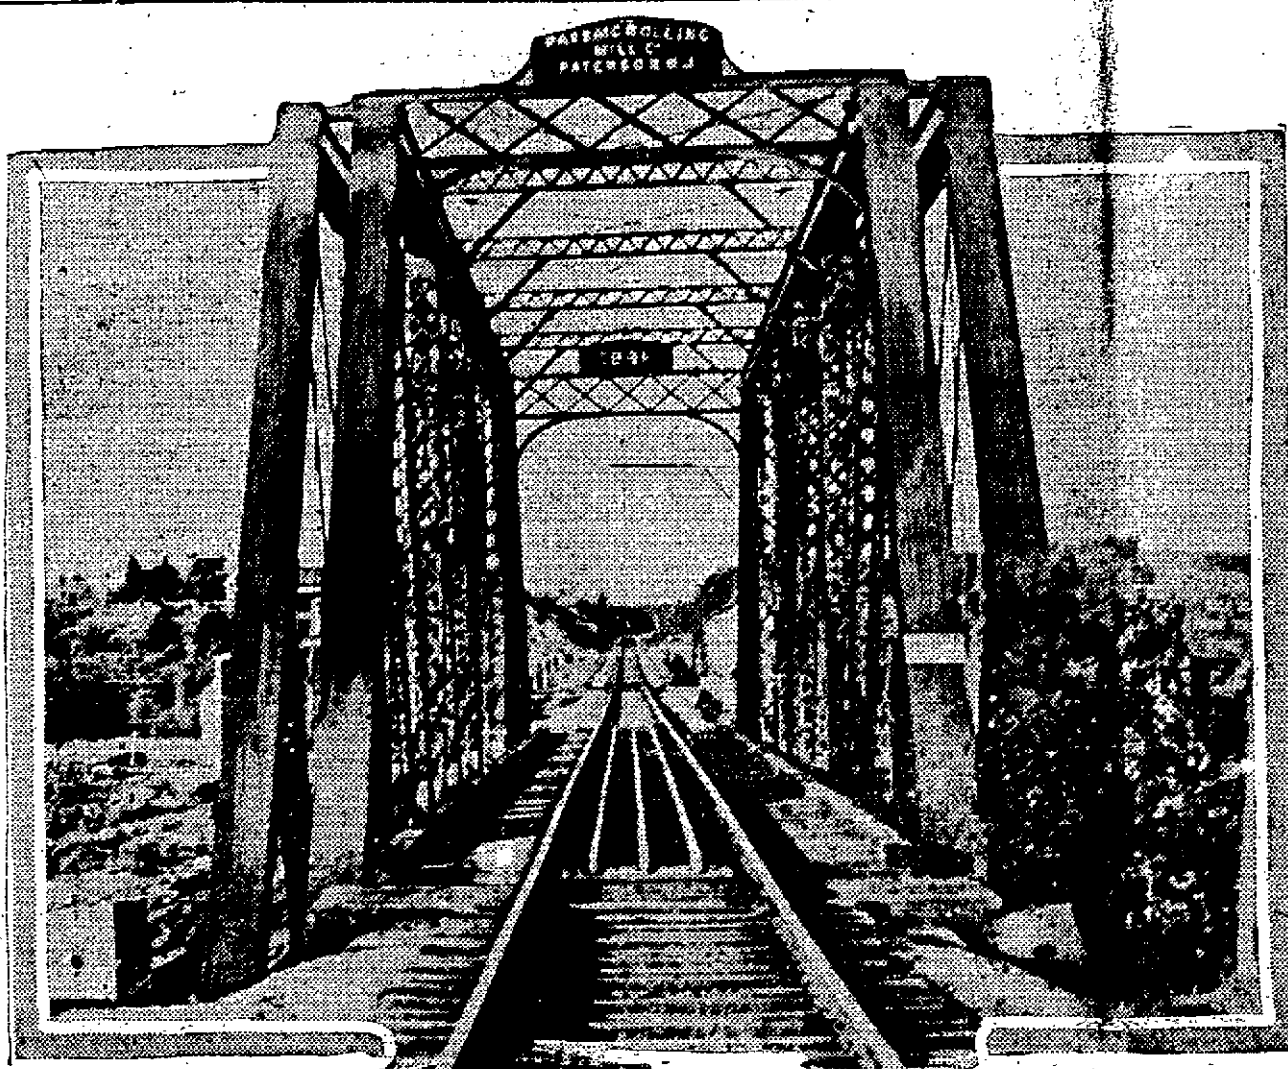

(Associated Press Telegram)

Washington, Feb. 5.—By unanimous vote, the senate elections committee today recommended investigation of senatorial campaigns in Pennsylvania and Illinois and in any other states where charges of corruption have been made.

The original resolution by Senator Norris, progressive Republican from Nebraska, proposing inquiry into the campaigns wherein Senator Penrose was re-elected from Pennsylvania and Roger Sullivan was de-

feated by Senator Sherman, Republican, in Illinois, was adopted but at the insistence of Republicans on the committee it was amended to authorize similar investigation into any such charges from other states. Senator Sutherland, Republican, offered an amendment, specifically naming Alabama, Indiana, California and South Dakota, but it was rejected and the amendment was made to provide for inquiry into campaign expenditures "in any other states which evidence brought before the committee may justify."

Bridge Blown Up By Werner Horn, Before Explosion

This is the Canadian Pacific bridge over the St. Croix at Vanceboro, Me., which was partly blown up by the German who gave his name as Werner Horn, and said he was an officer of the German army. The bridge formed the most important link between Canada and the British Isles. It was on the short route of the Canadian Pacific to New Brunswick, where shipments of soldiers, ammunition and supplies for the war have been made.

The prisoner, a powerfully built German six feet two inches tall, weighing about 190 pounds, is undoubtedly German and gives every appearance of having had military training. At midnight, Monday, Feb. 1, he placed a large charge of nitroglycerin near the Canadian end of the bridge, therefore in British territory, and exploded it in the hope of cutting off the long procession of grain trains, general food trains, troop trains, and horse trains forwarded from northern and eastern Canada to St. John, N. B., for shipment to the British armies abroad. He proudly exhibits a German flag which was wrapped around his left arm when he was captured.

Horn was tried before a Vanceboro magistrate and sentenced to 30 days in jail, for damaging property in that town.

Three Buffalo Women Murdered With Sledge; Boys Discover Bodies

(Associated Press Telegram.)
Buffalo, N. Y., Feb. 5.—The bodies of Mrs. Lizzie Drake, 65, Mrs. Irene Spencer, 35, and her daughter, Gertrude Spencer, 12, were found in their beds at their home at Salamanca today. Their heads had been crushed in with a sledge hammer. The hammer, smeared with blood and hair, was found on the floor in one of the rooms.

Boys passing the Drake homestead found the rear door open and made the discovery. The bodies were in separate rooms and there was no evidence of a struggle. Apparently the victims had been slain as they

slept. Physicians who examined the bodies said that the murder had been committed three or four days ago. The police have sent out an alarm for a former boarder at the Drake house.

Mrs. Drake was Mrs. Spencer's mother.

**\$500,000,000 CREDIT
FOR WAR SUFFERERS.**

(Associated Press Telegram.)
Paris, Feb. 5.—President Poincaré has signed a decree opening a credit of 300,000,000 francs (\$50,000,000) to meet the most urgent needs of persons whose property has been destroyed as a result of the war.

ORDERS STEAMER NOT TO ATTEMPT TO GET OUT OF ICE

(Associated Press Telegram)

Chicago, Feb. 5.—Orders were sent by wireless to the captain of the steamship Arizona, which is jammed in the ice in Lake Michigan, two miles off this port, to make no attempt to force her way through the ice until joined today by the Alabama, which was speeding to the rescue from Grand Haven, Mich.

Officials of the Goodrich Transit company, owners of the Arizona, fear that if the ship attempted to fight its way into Chicago, it would meet the fate of the steamship Iowa, who yesterday foundered three miles off shore in 40 feet of water.

Let us remember that justice must be observed, even to the lowest.—Cicero.

LEGISLATORS HAVE SPENT BUSY WEEK

FIRST THREE BILLS PASSED AND
READY FOR GOVERNOR'S
SIGNATURE

Office and Salary Investigation and
Bank Department Probe are
Under Way.

(Associated Press Telegram.)
Columbus, Feb. 5.—Legislators were returning to their homes today, after putting in one of the busiest weeks they have had since the session began. Both houses and senate adjourned late yesterday until Monday.

With the bank and "office and salary" investigations started and well under way, the first three bills passed by both houses and ready for the governor's signature, and hearings on the agricultural decentralization bill and Quinisk and Garver "flood prevention" bills, the legislative week has not been lacking in interest.

President A. P. Sandies of the state agricultural commission, was about the only speaker who strongly opposed the decentralization bill intended to reorganize the commission of which he is head. At last night's hearing Mr. Sandies told members of the committee that under the present agricultural commission there was no discord, and asserted that the state fair was second to none in the United States. There is no demand for a transfer of institute work to the college of agriculture of the Ohio State University, he said.

T. C. Laylin, chairman of the legislative committee of the State Grange, asserted that 18,000 farmers wanted control of the agricultural commission returned to the farmers instead of being placed in the hands of four commissioners. He stated that the state fair and institute were never better than when under the old unpaid board of agriculture.

Handling of the cattle plague also came in for discussion at the hearing and Charles McIntyre, expert of the agricultural commission, warned the committee that the coming of spring might cause another spread of foot and mouth disease.

A bill aimed at coal carrying railroads to make their rates on coal from Ohio mines equal to those from West Virginia mines, to Lake Erie, will be introduced in the house next week, according to Percy Tetlow, former representative from Columbiana county and a leader in the miners organization. He declared the reason Ohio miners are idle is that railroads charge Ohio operators 75 cents a ton for carrying coal from southern Ohio coal fields to the lakes, while they charge only 40 cents a ton for hauling coal from West Virginia.

Reports were current in legislative circles here today that the administration liquor license reform plan will be embodied in two bills to be introduced in the senate next week by Senator McDermott of Trumbull; and probably Senator Moore of Jefferson. One will provide for the substitution of a state commission of two members for the present commission of three, to supervise the license system and enforce laws by an inspection system. It may create license districts composed of two counties, with licensing authority vested in a joint board of county officials.

The other bill will contain the provisions for making the saloon system more strict, demanded by dry forces of the state. It will provide for a reduction of the number of saloons and more stringent regulations governing their conduct. It is pointed out that this plan of separating reform plans into two bills, will make possible a distinction by voters, if the measures are passed and called to referendum next fall by the liquor interests, as they threaten to do.

**CHIEF CLERK IN
STATE PRINTER'S OFFICE
LOSES HIS JOB.**

(Associated Press Telegram.)
Columbus, Feb. 5.—The office and salary investigating committee made its first move when abolition of the position of chief clerk in the state printer's office, and reduction of two salaries in the state bindery was recommended. Fred W. Loon, Democrat of Akron, will be out of his \$1,800 position as a result of the abolition of the chief clerk's office. Cheaper quarters for the state bindery were also urged.

RIVER TOWNS IN KENTUCKY ENDANGERED

BY FLOODS FROM THE OHIO
AND SEVERAL OTHER SWOL-
LEN STREAMS.

Flood Stage Crossed at Cincinnati—
Special Bulletin From
Washington.

(Associated Press Telegram.)
Lexington, Ky., Feb. 5.—Practically every river town in Central and Eastern Kentucky is in danger of floods, as a result of heavy rains throughout the mountains the last week.

The Ohio, Kentucky, Red, Cumberland and Big Sandy rivers, as well as the lesser streams, are all reported to be out of their banks. Farm products have been destroyed by the water and logging firms in the mountains fear heavy damage by the washing away of timber.

At Marysville, Ky., the flood waters of the Ohio river inundated low lying streets and cut off street car service to portions of the city.

RIISING AT CINCINNATI.

(Associated Press Telegram.)
Cincinnati, Feb. 5.—The Ohio river crossed the flood stage of fifty feet here today, and continued to rise at the rate of two tenths of a foot an hour.

A light rain fell here and at upper river points early in the day, but government weather forecaster Devereaux stated it would not materially affect the stage of the river, which, he predicted, would reach a crest of between 54 and 55 feet by tomorrow night.

Residents and merchants in the low lying section of the city have had ample warning and little property loss is expected from the flood.

MORE RAIN PREDICTED.

(Associated Press Telegram.)
Washington, Feb. 5.—The Ohio special flood bulletin issued by the weather bureau follows:

"The Ohio river flood is developing substantially as forecast several days ago. The crest this morning is evidently between Point Pleasant and Cincinnati. The stage at the last named place still lacks one-half foot of flood stage and there are no unusual developments below Cincinnati.

"Rain is falling this morning in the immediate Ohio valley and over the watersheds of the lower tributary streams. The average fall thus far is barely one-quarter inch. The effect of the rain that has fallen thus far and of that which will fall during the next 24 hours will be to prolong the flood and possibly to cause slightly higher stages at some points along the river, but serious effects are not anticipated unless the rain over the southern tributaries shall be unusually heavy."

German Author Gives Eyewitness' Accounts Of Naval Engagements

(Associated Press Telegram)

Berlin, Feb. 5, via London.—The newspapers of Berlin have begun the publication of a series of articles on the German navy and its activities by Otto von Gotheberg, a well-known German writer. It evidently is his purpose to give eyewitness' accounts of engagements at sea, for in the first of his publications, he makes use of a description of the engagement in the North Sea of January 24, in which the German cruiser Blücher went down as obtained from the men who took part in this fight.

"With the exception of the Blücher, the cruiser Seydlitz was the only German vessel to sustain any real injury as a result of the two hour bombardment from the British fleet," writes Herr von Gotheberg. "The British were firing at an extreme range. They kept at this distance in order to be protected from the fire of our secondary batteries. This probably is the reason that the shell which struck the

(Associated Press Telegram.)
London, Feb. 5.—Although referring sarcastically to German's threat to bottle up the British Isles by means of submarines as a "paper blockade," England is stirred today by this latest development in the marine situation as she seldom has been since the outbreak of hostilities.

The press unanimously subordinates all other war news, not excepting the Turkish attempt to cross the Suez canal, to give prominence to the dispatches from Berlin, while the foreign office statement following quickly the publication of the German decree indicates that the government authorities take the German threat as one requiring a prompt counter stroke. As the statement says, the authorities are considering "more stringent measures against German trade." The ministers are treating the subject as of particular urgency and a full official statement as to the attitude of Great Britain should be forthcoming shortly.

The German press, in the meantime, hails this newly announced policy of the navy with great satisfaction. The comments received in London today indicate that the newspapers consider sufficient the warning to neutral ships that the waters surrounding the British Isles are to be considered a military area after February 15, and that ships attempting outside of the channels specified, do so at their own risk.

Some English newspapers declare today that the German announcement should in the end benefit England, in that it rightfully entitles the British government to declare contraband all foodstuffs destined for Germany. Aside from confirmation of the report that no fewer than 12,000 Turkish troops comprise the expedition which has attacked the Suez canal, little news has been received in London relative to the operations in Egypt. That the attempt to cross the canal will be renewed in even greater force, however, is the general belief.

Declaration of New Naval War Zone By Germany Considered One of The Most Serious Developments of War

(Associated Press Telegram.)
Washington, Feb. 5.—Germany's declaration of a naval war zone around Great Britain and Ireland, including the English channel and the northern passage by the Shetland islands, is regarded here as one of the most serious developments of the war.

It was regarded as highly possible, for one thing, that it would hasten the movement begun by the Latin-American countries for a speedy conference of neutral states to devise means to reduce losses to neutral commerce to a minimum. At first there was some intimation in administration circles that it might be the subject of a protest by the United States, but the official view developed that there was little or no ground for that and it was recalled that no protest was made when the North sea was strewn with mines.

Sweden, Norway, Denmark and Holland have repeatedly addressed the state department here to secure

American backing for measures to relieve distress in their own commerce and the latest German proclamation is expected to cause redoubled efforts of the neutrals for measures to protect themselves.

Counselor Lansing of the state department took Secretary Bryan's chair at the cabinet meeting today, in the latter's absence.

Neither the state department or the German embassy had received the latest Berlin admiralty report today. Yesterday's proclamation is an extension of a former one delivered by Ambassador Gerard, applying to the north and west coasts of France.

There is no precedent in dealing with the question. The ordinary practices in taking prizes and dealing with the merchant ships of an enemy which it is not feasible to take as prizes are clearly set out and established by long usage. The merchantmen must be halted, boarded, and either made prizes or sunk. But

in the latter case, crew and passengers must be taken off.

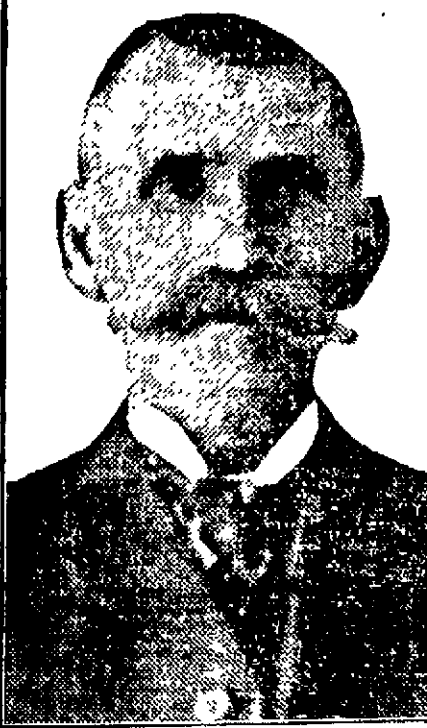

While it was noted that the proclamation was directed against "enemy ships," and applies to neutral ships only when the attacks "were meant for enemy ships," through suspicion of abuse of neutral flags, officials expressed grave concern over the implied threat to sink merchant vessels, probably without warning or taking off non-combatant passengers and crews.

During consideration of the subject by the state department, American mariners probably will be expected to heed the German warning and enter forbidden waters only at their own risk, precisely what they have been doing in the North sea since several months ago from both the British and German governments that owing to the planting of mines, it would be regarded as within the war zone.

After he had lain unconscious in his barn from the effects of a stroke of some nature, and suffered a frozen hand and foot, James Blizard, 50, farmer near Black Run, was found by Ray Evans, a neighbor, who missed him and searched the premises. Blizard's chances for recovery are considered small. If he does get well, one of his feet will have to be amputated, physicians say. He has never regained consciousness.

BREAD PRICE IS SUBJECT OF AN INVESTIGATION

(Associated Press Telegram)
Chicago, Feb. 5.—Federal investigation in Chicago of food prices was directed to the bread situation today. Charles F. Clyne, United States district attorney, planned to confer with leading bakers in an attempt to learn the causes back of the increase from five to six cents in the price of the small loaves of bread. Statements have been made that most of the large baking concerns have a supply of flour on hand, bought several months ago at the lower prices then prevailing. The bakers will be asked to show their books and records in order that the government may obtain correct figures on the subject. District Attorney Clyne said he wanted to know how much flour the bakers had in on hand in Chicago.

THIN FOLKS MADE PLUMP

Samose Ideal Flesh Builder Says Druggist Erman.

Thin people are simply suffering from want of nourishment. If you are thin, it is because the food you eat is not assimilated and passes through the system without building up the flesh and tissue as it should.

You can readily get plump and rosy by using Samose a tissue forming food which when taken with the meals, immediately becomes a flesh building and life giving element in the blood.

Use Samose for a few days and increase of life, vigor and weight is felt and you will notice yourself getting plump and rosy.

Samose builds up the system, puts flesh on the bones, brings back the glow of health to the pallid and languid feeling which is the result of exhaustion and low vitality.

W. A. Erman & Son, are introducing Samose to their customers and recommend it highly. They give the best proof of their belief that Samose will do all that is claimed for it by offering to refund the money if it fails to increase the weight and restore good health.

AUTO NOT OWNED BY NEWARK MAN

Police Chief Sheridan received a letter from the chief of police of Lorain advising him that the Lorain department held a warrant for the arrest of Dr. W. E. Van Fleet of Newark, for operating an automobile without a 1915 license tag.

It developed that Dr. Van Fleet was at one time associated with Dr. F. E. Corkwell, but has recently gone to St. Louis. He sold his automobile to a Cleveland man who evidently has not secured his this year's license.

The Lorain police attempted to identify the owner of the machine by the records of the state license department but this did not show the chance of ownership. The Lorain police department will be advised of its error.

CATARRH GERMS EASILY KILLED

Only Way To Cure This Disease Is To Destroy Its Cause.

By A Specialist.

If you have catarrh and want to get rid of it you must kill the germs which cause the catarrh. Stomach, oesophagus, intestines, sprays, cream, douches, etc., fail because they overlook this fact. They all help by giving temporary relief but they do not reach the germ life that has found lodgement in your head, nose, throat and could not destroy it if they did.

The best known way of destroying the dangerous germs of Catarrh and consequently ending the disease, itself is to breathe into the air passages of your nose and throat the pleasant, penetrating air of Hyomei (pronounced high-oy). Hyomei is made from purest oil of Eucalyptus combined with other powerful, healing antiseptic and germicidal ingredients. You breathe it through a little pocket inhaler which T. J. Evans and other leading druggists in Newark and vicinity are furnishing with every complete treatment sold. Every time you inhale the sweet fragrant air of Hyomei through this little device you are drawing upon your swollen, inflamed, catarrh laden membranes a medicated air which will not only reduce all the swelling and inflammation and open your clogged nose and stoppage of air passages, but will absolutely and positively destroy every trace of Catarrh germ life it reaches. Druggists are so sure of the blessed, lasting relief that Hyomei brings to catarrh sufferers that they sell it invariably on the positive guarantee that money paid will be refunded if successful results are not secured from its use. Get a Hyomei outfit from your druggist today and begin at once to drive this dangerous and disgusting disease from your system forever.

DECLARATION

man proclamation as a threat to destroy neutral ships if found in the war zone, but as a warning that all ships entered there at their own risk.

While the German proclamation is being carefully considered at the state department, officials manifested much interest as to the probable effect of the announcement on the movement of American ships bearing munitions and contraband of war to the allies. While such vessels probably will be conveyed into French or English ports by warships of the allies, the rules of international law provide that a neutral vessel cannot be destroyed until taken to a prize court and duly condemned.

Waterloo In London.
Waterloo bridge was pronounced by Canova the noblest bridge in the world. He declared that if there was nothing else to see in London the sight of Waterloo bridge was well worth the trouble of a journey from Rome. The Marquis de Vernon, who was a cotemporary of Canova, also admired the bridge, but its name grated on him. "Wherever I go in London," he writes, "the name of Waterloo greets me. Besides Waterloo bridge (specially rechristened) to remind us of our defeat, Waterloo road and Waterloo street there are Waterloo hotels, Waterloo academies, Waterloo public houses, Waterloo eating houses and Waterloo shops of all kinds and descriptions. The ladies wear Waterloo bonnets and the gentlemen Wellington boots."—London Chronicle.

A Marvelous Cure.
The part the imagination plays in causing and curing many of the ills that flesh is heir to has never been so amusingly demonstrated as in the case of a Glasgow lady who suffers from severe nervous headaches. The only remedy she acknowledges is So-and-so's pills. These always effect a cure, she says. One evening recently she complained of a very bad attack. At her request the little white pill was brought with a glass of water to "get it over." The effect was marvelous. Within a few minutes the patient declared she felt better, and within half an hour the headache was gone. Imagine the lady's surprise and the household's amusement when, on some one going to wash out the drinking glass next morning, the little white pill was found sticking to the bottom.—Glasgow News.

FRENCH REPORT GERMAN AIRMEN SHOW ACTIVITY

TRENCH CAPTURED BY ALLIES PROVED ANNOYANCE, AND WAS BLOWN UP.

German Gain 100 Yards of Trenches in the Argonne, Which Were Retaken.

(Associated Press Telegram)
Paris, Feb. 5.—The French war office this afternoon gave out a report on the progress of the fighting which reads as follows:

"In Belgium, German aviators yesterday showed great activity. The announcement given out last night reported the occupation of a trench of the enemy to the west of the road from Arras to Lille. This trench was a cause of annoyance to the troops occupying the positions won by us several days ago to the east of this road. Consequently, we blew it up with a mine, and immediately afterwards a detachment of Zouaves and of four light African infantry installed itself securely in the conquered positions. All the Germans in the trench thus occupied were either killed or taken prisoner.

"Our artillery silenced the batteries of the enemy at a point near Alderfer (to the south of Arras) near Posleras (north-east of Albert) near Ham (north-west of Peronne) as well as in the section of Pailly (south of Novion). There is nothing new in the region of Perthes, in the Argonne there was yesterday one attack at Bagatelle. This attack which in the beginning took from us about 100 yards of trenches, proved two counter attacks on our part, which resulted in our not only getting back this 100 yards, but in gaining ground beyond where our lines had been previously.

"In the Vosges yesterday saw artillery exchanges. Along the rest of the front there is nothing to report."

People get in a condition like this only because they are not taking proper care of their stomach.

Every stomach has a lot of work to perform in digesting the food and if crowded with extra labor it rebels and kicks up a fearful disturbance.

There is a simple, harmless, inexpensive and most effective prescription, easily obtained at any drug store called M-O-N-A that will quickly stop this disturbance. These little vest pocket M-O-N-A Stomach Tablets were especially prepared to regulate out-of-order stomachs. They not only help the over-worked digestive organs by increasing the flow of gastric juices, but surely and safely build up and strengthen the stomach walls so that the stomach can take care of the food as nature intended.

It's needless for you to suffer with indigestion, heartburn, biliousness, sour, gassy or upset stomach, for M-O-N-A will give prompt and lasting relief every time. Do not delay, but get some of these indigestion ending tablets, from T. J. Evans, or other leading druggist today. Be sure you get M-O-N-A and accept nothing else. As M-O-N-A is always sold with the understanding that if it does not banish all stomach distress your money will be returned on request.

Theatres

Last Night's Show.

Manager Casper was compelled to hang out the S. R. O. sign at the Victoria theatre, "Mutt and Jeff" being the attraction. Although the play had been produced in this city on three former occasions it did not compare to the company that produced the musical comedy last evening. The principals were all clever and the chorus was excellent. The song hits were greatly enjoyed as well as the comedy work of Mutt and Jeff. The next attraction is "Henpecked Henry," the big musical farce comedy, which comes to the Victoria Saturday matinee and night.

"Henpecked Henry."
Halton Powell's "Henpecked Henry" one of the most famous cartoon musical farces ever produced on the American stage, is to be the attraction at the Victoria theatre, Saturday matinee and night. Its coming is in keeping with the efforts of the house management to present a series of the highest class attractions this season. "Henpecked Henry" interprets the troubles of a married man whose principal effort in life is to sidestep troubles with his wife. The play is most laughable, and to add to its charm it is presented by an especially fine company and a chorus of unusual beauty. Comment and criticisms have preceded the show which is of a most favorable nature and its engagement here should be one of the notable events of the season for amusement lovers in this city.

IT RUINS HAIR TO WASH IT WITH SOAP

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulished coconut oil (which is pure and greaseless), is cheaper and better than soap or anything else you can use.

One or two teaspoonsful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulified coconut oil at any pharmacy, and a few ounces will supply every member of the family for months.

DR. A. W. BEARD
FILES ANSWER
TO CHARGES
CONTAINED IN PETITION FILED
BY ROY COCHRAN, IN COM-
MON PLEAS COURT
Annoyance of Beard's Daughter by
Suspicious Persons Recited in
Pleading—Court News.

An answer has been filed in com-
mon pleas court by the defendant in
the case of Roy V. Cochran vs. Al-
bert W. Beard in which the latter
states that on and previous to the
second day of January, 1915, he
lived with his wife and two daugh-
ters at 272 Granville street, and that
between said date and Dec. 9, 1914,
some man unknown to the defend-
ant and to his daughter Dorothy,
who is twenty years of age, by tele-
phone conversations and by prowling
around defendant's house at
night and by sending anonymous
notes had threatened to kill her. The
person was seen prowling about the
premises but was not identified. The
answer further recites that on Wed-
nesday night, Dec. 30, at 11 o'clock
said person threw something into
the house which caused a violent ex-
plosion.

That on Jan. 2, 1915, the defend-
ant was walking up Granville street
after dark, that the plaintiff was
loitering near the defendant's resi-
dence hiding behind a tree and from
time to time peering at defendant
and that the latter demanded to
know who he was. Thereupon Chas.
Vest who was engaged in guarding
the Beard premises, came out and
after talking with the plaintiff was
satisfied that he was who he claimed
to be and he was allowed to go.
Defendant alleges that he did not
know the plaintiff and believed from
his actions that he was the person
who had been annoying and threat-
ening the defendant. That the ac-
tion of defendant in accusing plaintiff
resulted solely from suspicious
conduct of the plaintiff. The defend-
ant denies each and every other al-
legation in plaintiff's petition.

Held For Sheriff.
Sheriff Chas. H. Swank left today
for Greensburg, Pa., going after Or-
ville Kiger, who is held in custody
there for the Licking county court on
a non-support charge. The sheriff
will be forced to secure requisition
from the governor of Pennsylvania
and expects to return with his pris-
oner either Sunday or Monday.

Judge Jewell Here Monday.
In Common Pleas Court on Friday,
the court and a jury were engaged
in hearing the evidence of counsel in
the case of Dewey Young vs. Grif-
fith Jones, in which plaintiff sues for
damages caused by being shot by de-
fendant with a shot gun on March
10, 1913.
On Monday next Judge C. W. Jew-
ell will preside at the trial here of
the case of the City of Newark vs.
the Newark Natural Gas & Fuel Co.,
and the Logan Natural Gas Co.
This is the injunction suit to re-
strain defendants from turning off
the gas from the citizens of New-
ark.

There will be two courts running
here for some time beginning Mon-
day next. Judge Fulton will preside
at the trial of the assignment of
criminal cases.

In Justice Scott's Court.
After hearing the evidence in the
case against Amzi Smith in Justice
Fletcher S. Scott's court yesterday,
in which Smith was charged with
assault with intent to kill on an af-
favit sworn to by Edw. Glover,
Justice Scott bound the defendant
over to the grand jury on a charge
of assault and battery, but not as
charged in the affidavit, assault with
intent to kill. The bail was placed
at \$100 which Smith gave.

Doesn't Take so Much Time.

One would think to hear a man
talk that a woman who intended to
vote would have to pack a steamer
trunk and engage a week's board
round about the ports somewhere.
But the probability is that a really
smart woman could run around and
chuck in a ballot while the potatoes
were boiling for dinner.

Prevent Diphtheria.

A sore throat is a good breeding place
for Diphtheria germs. Protect your chil-
dren by never neglecting a Sore Throat.
You can wisely depend upon TONSILINE.
Give Tonsiline upon the first appearance of
Sore Throat—don't give Diphtheria a
chance in that throat in its weakened con-
dition. When TONSILINE is swallowed it
comes directly in contact with the diseased
surface and induces a healthy condi-
tion of the membranes—then the
system can better defend the throat
it attacked by Diphtheria germs.
Keep TONSILINE in the house
where you can get it quick when
needed. 25c., 50c. and \$1.00.

BEGY'S MUSTARINE ENDS SORE THROAT, LUMBAGO, NEURALGIA

Will not blister and is always ready.
Nothing so good for Rheumatic
Pains and Neuritis.

For only 25 cents you can get a
big yellow box of yellow MUSTARINE
and sincere druggists will tell
you that if it isn't better than any
plaster, liniment or poultice you ever
used, money back.

BEGY'S MUSTARINE absorbs in-
stantly, is very penetrating and
that's why it only takes a few min-
utes to get rid of carache, headache,
toothache, backache and neuralgia.
Rub it on tonight and in the
morning that sore, raw throat will
be better. It acts the same way with
tonsillitis, bronchitis and pleurisy.

It's America's household remedy
for sprains, bruises, soreness, lame-
ness, stiff neck, cramps in legs or
sore muscles.

Ask for BEGY'S MUSTARINE in
the yellow box, the original yellow
mustard preparation. T. J. Evans
can supply you.

Unique Service Sunday at First Presbyterian Church

Next Sunday has been designated
by the Presbyterian church as "Voca-
tion Day" as a help and stimulus
to young people on choosing a life-
work, and with the especial view of
calling the attention of young men
to the ministry as a life calling. In
harmony with this fundamental idea
the pastor of the First church of our
city has arranged to have six men,
representing as many callings, place
the attractions these callings present
to young people about to choose a
life-vocation. The business man, the
lawyer, the doctor, the educator, the
lay Christian worker and the minis-
ter each will present the attractions
and the claims of his profession for
the ambitious youth. The service
will be unique in character and at-
tractive in interest. All young men
and young women of Newark inter-
ested in the choice of a life work
will find the service helpful, and are
cordially invited to attend. This
service will be held Sunday morn-
ing at 10:30 o'clock.

JOINT MEETING COUNTY BOARDS OF EDUCATION

A joint meeting of the Licking
County and Fairfield County Boards
of Education was held at Etta, Ohio,
Feb. 4. A hearing was granted the
residents of various districts desiring
territory added to or taken from
districts in which action by both
boards was necessary. Two counties,
three villages, four townships and
one special district had representa-
tives present. The business in ques-
tion was thoroughly discussed and
many points made clear. As a re-
sult of the meeting Walnut township,
Fairfield county, will receive part of
Licking county school district lying
in Fairfield county. The people of
the Zion school will determine at a
later meeting whether they desire to
unite with Etta district.

The last business of importance
was the desire expressed by a unani-
mous vote that the present school
laws be given a fair trial.

SUFFERED 15 YEARS, CURED IN 21 DAYS

Astounding Cures Made by This Re-
markable New Discovery.

Gentlemen: For over fifteen years I
was afflicted with eczema, covering my
arms, legs and face. I suffered so
much distress that I could not sleep.
My face was red and swollen, and
covered with dry, feverish scales. I was
unable to attend to business for weeks
at a time.

I had about given up all hope when
I tried your remedy, Amolox. The first
application gave me relief so I could
sleep. After applying it for several
days I was able to attend to business.
After thirty days' treatment my eczema
entirely disappeared.

James R. Rigby,
Youngstown, Ohio.

Amolox is the prescription of a
physician who used it with wonderful
success in his private practice. Now,
for the first time, offered for sale by
the leading druggists.

Amolox Ointment will quickly ban-
ish pimples on the face, blackheads,
and all minor skin troubles. Chronic
cases of Psoriasis, Salt Rheum, Tetters,
that have suffered for years, require
both the Ointment and Solution to ef-
fect a cure. Trial size, 50c. Guar-
anteed and recommended by T. J.

RECORD PRICE FOR WHEAT IS AGAIN REACHED

(ASSOCIATED PRESS TELEGRAM)
Chicago, Feb. 5.—Wheat advanced
swiftly today to a new high record
war price. It only took a brief time
for the May option to reach \$1.66½;
a jump of 2 3-8 cents compared with
last night. The previous topnotch
quotations was on Feb. 3—\$1.66.

Most of the trading today, however,
was in the July delivery, in which
the upturn was not quite so radical.
Something like a selling stampede
ensued after the market had climbed
to \$1.67 for May. Seaboard offers
to re-sell wheat in Chicago surprised
the bulls and there was also an ele-
ment of depression in the fact that
corn which to a large extent may be
substituted for wheat, was not keep-
ing pace upward with the more ex-
pensive cereal. The result was a
sudden drop of more than three
cents from the top figures attained
by wheat.

(ASSOCIATED PRESS TELEGRAM)
Breaks in the price of wheat options
continued until 4 1-2c had been taken
from the earlier values. It was said
the German notice of a danger zone
clear around Great Britain was hav-
ing a serious effect on ocean traffic
conditions and that offers were being
made to re-let eastbound vessel room
both from along the Atlantic seaboard
and from the Gulf of Mexico.

Closing prices were extremely nerv-
ous at a range varying from 1-2c off
to 1-2c up compared with last night.

P. O. INSPECTOR MAKES HIS FINAL TRIP TO NEWARK

W. F. Field of the treasury de-
partment at Washington, D. C., is
in the city today making another in-
spection of the sites for the new fed-
eral building, the postoffice.
Mr. Field is secretary to the as-
sistant secretary of the treasury and
comes for this final inspection
through the efforts of Congressman
W. A. Ashbrook. The inability to
dispose of the Sherwood site at a
reasonable figure delays the purchase
of another site. Also the department
considers the location of the Sher-
wood site ideal, but it is not large
enough. Dr. Baldwin was consulted
today and it may be possible that a
part of his property will be pur-
chased and thus secure a larger
tract by extending the present prop-
erty of the government eastward.

The other sites which have been
offered are also receiving consid-
eration at the hands of Mr. Field.

The Noise of Silkworms.

A naked man is always in attend-
ance in the hatching room of the silkworms of China. The worms, being
so very frail that the temperature and
humidity of their chamber must not
vary, their guard is naked, so that he
may detect any slightest change by
the sensitiveness of his skin.

After the worms are hatched no loud
talking is permitted near them, and
there are even guards whose duty it is
to keep the flies off them. These
guards must bathe before entering the
worms' presence, and their breath
must be sweet and inoffensive. On-
ions, for instance, are forbidden fruit.

Such precautions seem absurd. Yet
it is unquestionable that China leads
the world in silkworm culture. A Chi-
nese silkworm farm breeds the strange,
industrious creatures by the million.

In one of the great silkworm houses
it is possible to hear the worms feed-
ing; yea, it is even possible, so nume-
rous are they, to hear the sound they
make in spinning their cocoons, a
sound like the ripple of rain.—Chicago
Record-Herald.

An Escape.

"I told you I was going to be."
"But I thought it was a joke."

WHEN YOU BUY Insist On Having Made in U. S. A. Products

The buying public never before had a better opportunity than the present for insisting on products MADE IN THE UNITED STATES OF AMERICA.

The merchants and manufacturers are in and always have been in a position to furnish and produce better products at PRICES AS LOW and in many instances LOWER than foreign-made products.

The "BUY A BALE OF COTTON" project relieved the situation in the South. It is time NOW that the entire country should be relieved to a certain extent by the purchase of products MADE AT HOME.

It is YOUR opportunity to help NOW. See that the products YOU BUY are MADE IN THE UNITED STATES OF AMERICA. We are labeling our products with the following labels.

We will consider it a favor if you will call our attention to any case wherein any of our products in the future do not bear the one or the other of these labels.

You can help, by insisting on products you purchase bearing the stamp, MADE IN THE UNITED STATES OF AMERICA.

You will be assisting every merchant and manufacturer in the United States by demanding MADE IN THE UNITED STATES OF AMERICA products and this will in turn help every laboring man in this country.

Strange Case of Leo Frank.

(Columbus Dispatch.)

The acquittal of the Frank case at Atlanta, of suborning perjury in aid of the prisoner is a significant incident. The case was tried before a jury selected from the people of the very community which has for so long a time been demanding the extreme punishment of Frank. If the detectives are innocent, then two Atlanta witnesses, one of them a clergyman, who swore that they had been bribed by the detectives, are perjurers and should be severely dealt with.

The incident seems to mark a reversal of sentiment, or at least a check in the mad current which has prevailed so long in Atlanta. It seems to show that there are persons in Atlanta who are capable of thinking sanely with regard to the murder of Mary Phagan, and it may indicate that some who once felt that right was all on the side of the prosecution have begun to doubt. If such is their present state of mind, there can be no wonder. At least half a dozen different investigations by persons outside the circle of an infuriated community have been made, and every one of them has resulted in the conclusion that the verdict of guilty against Frank was unjust or influenced by prejudice.

The acquittal of the detectives against whom there has been almost as much frenzy as against Frank himself ought to convince the people of Atlanta that there is in this case still something to be probed before the sentence of the court upon Frank is executed.

Presidential Bee.

The Macon Telegraph hears that "the Presidential bee is about to sting our friend Fairbanks." If the reference is to Hon. Charles Warren Fairbanks, of Indiana, one-time Vice President of these United States and familiarly known as "The Elongated Human Icicle," our advice to the bee is to neglect no possible precaution against sudden death from chill.—Norfolk Virginia-Pilot.

Battleship Matches.

The Germans persistently declare that three British ships were sunk in the Sabbath battle on the sea. The British indignantly deny it. The disparity between reports from London and Berlin in such engagements can be harmonized in only one way. The presence of a competent and disinterested man should be arranged for to umpire all coming matches and announce the decision on points.—St. Louis Post Dispatch.

Supply of Wheat.

If New Zealand has contracted for 1,000,000 bushels of next Summer's Canadian wheat, the present supplies will not be affected, but there is a plain indication that the Australian wheat crop this winter is not sufficient to afford a surplus. There is still reason to expect a considerable export from Argentina. A dispatch from Delhi says the wheat area is 2,500,000 acres greater than last year, and with favorable weather conditions India will have a large surplus for export, which will come along in April or May and relieve the demand upon American supplies.—Philadelphia Record.

NOT WORTH WHILE.

The night of death will soon descend; a few short years and then the end, and perfect rest is ours; forgotten by the busy throng; we'll sleep in the grass and flowers. Our sojourn in this world is brief, so brief, so why go hunting care and grief, why have a troubled mind? And what's the use of getting mad, and making folks around us sad, by saying words unkind? Why not be sunny and serene, from spite and envy free? Why not be happy while we may, and make our little earthly stay a joyous jammer? We're here for such a little while! And then we go and leave the pile for which we strive and strain; worn out and broken by the grind, we go, and leave our wads behind—such efforts all in vain. We break our hearts and twist our souls acquiring large and useless rolls of coins and kindred things, and when we reach St. Peter's Town, they will not buy a sheet-iron crown, or cast-off pair of wings. Why scheme and sweat and skimp and save? The money will not buy a grave much better than the one in which the village pauper lies; in this brief life that man is wise who has his share of fun.

Mother Goose Revised.

The Advocate respectfully submits to President Wilson a few suggestions for the revision of the ancient classic, Mother Goose, against the time when Francis Sayre, Jr., is demanding to be entertained by the mental as well as physical gymnastics of his elders.

Mr. and Mrs. William W. Neal of North Fifth street have announced the engagement of their daughter, Miss Mary Hester Neal to Dr. Arthur Hamilton of Cleveland.

Miss Zanley Floyd pleasantly entertained the C. J. C. club Wednesday evening at her home in Lawrence street. The evening was spent in music, dancing, and contests, the first prize being awarded to Miss Rosanna Floyd. At a late hour all adjourned to the dining room where a delicious four-course luncheon was served. The next meeting will be held at the home of Miss Esther McNeerney.

The members of the Sunshine club gave a delightful "Winter Picnic" at the home of Mrs. Lee Bratton of Western avenue on Wednesday afternoon. Each of the ladies brought different edibles which formed the appetizing luncheon that was immensely enjoyed. Social conversation and musical numbers also enlivened the occasion. Mrs. Alfred Hauke was the only guest.

The next meeting of this club will be held on Thursday afternoon, February eleven, at the home of Mrs. Graham of West Church street.

The Coterie club members were entertained at the home of Mrs. W. Harrison in East Main street on Saturday afternoon. The program was taken from the club calendar.

WEAKLEY—JUSTICE.

The marriage of Mr. Newman A. Weakley, Jr., and Miss Edna May Justice was solemnized Thursday evening at 6 o'clock at the home of the groom's brother in Livingston avenue, the Rev. A. B. Cox officiating. They were attended by Mr. Alonzo Justice, brother of the bride, and Miss Helen Staugh. The bride was charmingly gowned in blue silk and carried a large bouquet of white roses. Mr. and Mrs. Weakley are both well known young people of this city and will be at home to their many friends in Leonard avenue.

After the ceremony an elaborate supper was served to the following guests: Rev. A. B. Cox, Mr. N. A. Weakley, Mr. H. Harvey Justice, Messrs. and Mesdames H. R. Westley, Lee Beatty, N. A. Weakley, Jr., B. F. Clayton, L. D. Weakley, J. W. Weakley, John Justice, O. Barrett, Miss Goldie Clayton, Miss Helen Staugh, Mr. Archie Goodwin, Mr. Alonzo Justice, Messrs. The Criterion Sewing club met with Mrs. Clinton Pether at her home in Eighteenth street. The afternoon was spent in needle work after which dainty refreshments were served to the following members: Misses Margaret Melleuiv, Helen Sawyer, Hannah Youss, Thirza McManon, Maud Carpenter, Beatrice Palmer, Mrs. Charles Elchorn, Mrs. Edward Smith, Mrs. Roy Davis and the hostess.

The next meeting will be with Miss Maude Carpenter at her home in Stevens street, February 27.

The Social Embroidery club met with Mrs. Will Davidson, 57 Hoover street, Thursday evening, it being Mrs. Davidson's natal anniversary. The rooms were beautifully decorated with cut flowers and foliage, and a dainty three course luncheon was served by the hostess. A large cake with lighted candles formed the center piece. Mrs. Davidson was the recipient of a number of pretty tokens of remembrance. Guests of the club were Mrs. John Stroup, Mrs. Will Phillips, Mrs. Edgar English.

Miss May Kammerer entertained the members of her Euchre club on Thursday evening at her home in West Church street. The game was preceded by dinner served at the small tables, and the awards for the progressive game of euchre were later made to Mrs. George Streams and Miss Helen Brennan for the club and the guest trophy was received by Mrs. Henry Ashcraft. The guests of the club were: Mrs. William Foley, Mrs. Henry Ashcraft, Messrs. Jesse Tafel, Lillian and Emma Kammerer.

WOMEN OF RUSSIA.

Petrograd, Feb. 5.—As the war continues the women on the border suffer the horrors of war and the mothers and orphans left at home are the ones who suffer most. In America are many mothers and daughters, who were left penniless by the war of the Rebellion, but their suffering is as nothing to the women and orphans of the soldiers who have fought and bled for their country in Europe.

Many a mother and daughter have reason to be thankful to Dr. Pierce for relief from suffering and the cure of those weaknesses of their sex, because of his "Favorite Prescription." This tonic, which is strictly a temperance medicine, has cured thousands of these weaknesses, headaches, nervousness, backaches, which are the outward manifestations of disease in women. Dr. Pierce's Favorite Prescription speedsily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

It is a wonderful prescription prepared only from nature's roots and herbs with no alcohol to falsely stimulate and no narcotics to wreck the nerves. It banishes pain, headache, backache, low spirits, hot flashes, dragging-down sensation, worry and sleeplessness surely and without loss of time.

What Dr. Pierce's Favorite Prescription has done for thousands it will do for you. It's not a secret remedy for its ingredients are printed on wrapper. Get it this very day at any medicine dealers in either liquid or tablet form.

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.—Adv.

RELEASED FROM PEN. THURSDAY: ARRESTED HERE FRIDAY MORNING

Vincent Slevin of Guernsey county was arrested shortly after 2 o'clock Friday morning by Officers Sunkle and Greeley on a charge of disorderly conduct. Slevin had just been discharged from the penitentiary at Columbus and had the original \$10 bill which all prisoners are given upon discharge.

When arraigned before Mayor Bigbee, Slevin pleaded guilty and admitted that he had just left the penitentiary. Mayor Bigbee told him that he had no desire to take the money which was given him to make a new start in the world. He assessed a fine of \$5 and costs and suspended the amount, on condition that Slevin leave town immediately. The man denied being guilty of the charge for which he was sent to the pen.

An absent-minded Newark lawyer on coming back to his office after a short absence saw a notice posted on his door. "Back at 4 o'clock," and sat down on the top step to wait for himself.

DEATH

CAME SUDDENLY TO MRS. LOUIS TWINING AT HER GRANVILLE HOME

Although Ailing No Fears were Entertained for Her Recovery—News of Village.

(Special to The Advocate)

Granville, Feb. 5.—The many friends of Mrs. Louis Twining will be grieved at the news of her sudden death this morning at 5 o'clock, from heart trouble. Mrs. Twining had been slightly ailing since Tuesday, but no apprehensions were felt as to her recovery, and the fatal termination has come as a terrible shock to her family, and to her friends, as she has always been greatly beloved by all who knew her. She is survived by three children, Mrs. George Barber, Mrs. John McClain, and Mrs. William Ubbits, and by the daughters of Mr. Twining to whom she had been a mother for many years, Mrs. J. B. Smith and Mrs. L. T. Denune. Funeral will be Sunday afternoon at 1 o'clock at the home. Interment in Maple Grove.

The Denison Glee club, an organization of which the institution may justly feel proud, left at 6:20 this morning for Cincinnati, where two concerts will be given. Wyonning will be favored tonight, and is showing its appreciation by a reception to the Denison men in the Wyonning club, a handsome new structure. Mr. Will Sheppard, a Denison alumnus has arranged for the concert and he and Mrs. Sheppard (Nina Dugmore), will entertain several of the visitors at their home. Saturday evening, the club will give a concert at Norwood, where Mr. Allen Roudelush, who still roots for Alma Mater, will take them in charge. Mr. L. H. Cox, director of this splendid organization, has proved himself equal to his task and Mr. Kenneth Ullman is highly efficient as business manager.

The third quarterly session of the Licking County Teachers' Association will be held in Newark, Saturday, February 6. Among those having part on the interesting program prepared by the committee will be Dr. C. W. Chamberlain, president of Denison university; Principal Oren J. Barnes of Newark High school; Superintendent G. W. Brown of Pataskala schools, and Superintendent E. C. Darnell of Alexandria.

Rev. George Van Winkle, one of Denison's alumni, has received the honor of being appointed chaplain of the Wyoming State legislature at Cheyenne.

Mr. Donald Van Winkle, a junior in Denison University, has been employed to fill the vacancy in the Granville High school faculty, caused by the resignation of Mr. J. F. Haslums. Mr. Van Winkle hails from Cheyenne, Wyo.

Mr. William G. Lewis of Toledo who has been the guest of Dr. and Mrs. C. L. Williams, left for his home today.

Prof. Karl Eschman left this morning with the Denison Glee club on their two days' concert tour of Cincinnati. As in his student days, his services as pianist are invaluable to the club.

Rev. and Mrs. A. J. Hawk are enjoying a visit from their son, Mr. Paul Hawk of Chillicothe, O.

Mrs. L. W. Perry left Thursday for Whitefield, N. H., where she will visit her granddaughter, Mrs. William Shanor (Pauline Perry) for a month.

Mr. and Mrs. C. J. Pence, who have been guests at the home of Mr. and Mrs. S. M. Pence in Urbana for two weeks, have returned to their home on North street.

The photo-play to be shown this afternoon at 3:30 o'clock in the Granville opera house for the benefit of the public library will be "The Cricket on the Hearth." There will be an evening performance at 7:30 o'clock.

Mr. H. H. Eschman of Dresden, O., spent yesterday at the home of his son and daughter, Prof. and Mrs. Karl Eschman in Maple street.

YOUR BOYS AND GIRLS

A truly invaluable nursery possession is a tray of sand which will fit upon a child's small table, or even at a pinch rest on the floor. The tray should have upright borders not less than four inches in height and a little higher is better—and should contain a heap of clean sand.

This when slightly moistened, can be "built" into all manner of fascinating objects from the elementary "castle" of boyhood to a complete railway line, with station, bridges and tunnel, through which the train can run, or the daintiest of miniature gardens planted with twigs and leaves and bordered with massive "rocks" formed of stones, over which more flowers will trail.

And this, again, need take no appreciable room, for the little owner can soon be taught to scoop the sand up and put in a closed receptacle, the empty tray standing quite out of the way until the next time it is used.

NO DANGER FELT

OF LOCAL FLOOD. Newarkites feared another disastrous morning when they awoke this morning for it had begun to rain early and it continued incessantly throughout the day. Walking was very difficult for there is yet much ice on the public highways and walks over the city. There is no danger of a flood at the present time but if the rain should continue for several days it might result in an overflow of the bottom lands. The thermometer stood at 34 degrees at noon.

Gil Kiefer says he thinks that some of the maiden ladies of Newark have more propriety on hand than they know what to do with.

THE WORKING GIRL'S BEAUTY.

The desire to please and attract is a most natural instinct in young womanhood. Many girls, of course, over estimate its importance, and there is also a large number of girls who discount their own power of attractiveness.

The girl who works must make every spare moment of her time count. Fifteen minutes each night before retiring will have more effect on one's looks than a whole Sunday spent in a vigorous attempt to dissipate a week's neglect and wear and tear.

Never allow the skin, the hair, or the teeth to stay soiled. Dirt is the most deteriorating agent there is to beauty. Remember that one-third or nearly that proportion of your life is spent in sleep, and don't allow that hateful, destructive agent to get in its work then.

Go to bed with your face clean, brush your hair carefully, air it and manicure your nails, after you have washed your hands thoroughly, brush your teeth, wipe off the gums and tongue with a bit of absorbent cotton and gargle the throat. You can now safely defy the greatest beauty destroying microbe.

The girl who works in an office or store may not have the time or the money of the woman who stays at home, but she will find that if she spends fifteen precious moments each night to the care of her looks, she will keep up quite as good an appearance as the woman who lolls about the house in a Japanese kimono, and depends on hired servants to perform the grooming of her person. But it must be sincere, this quest of beauty, and it must become an infallible habit, not an unusual occurrence.

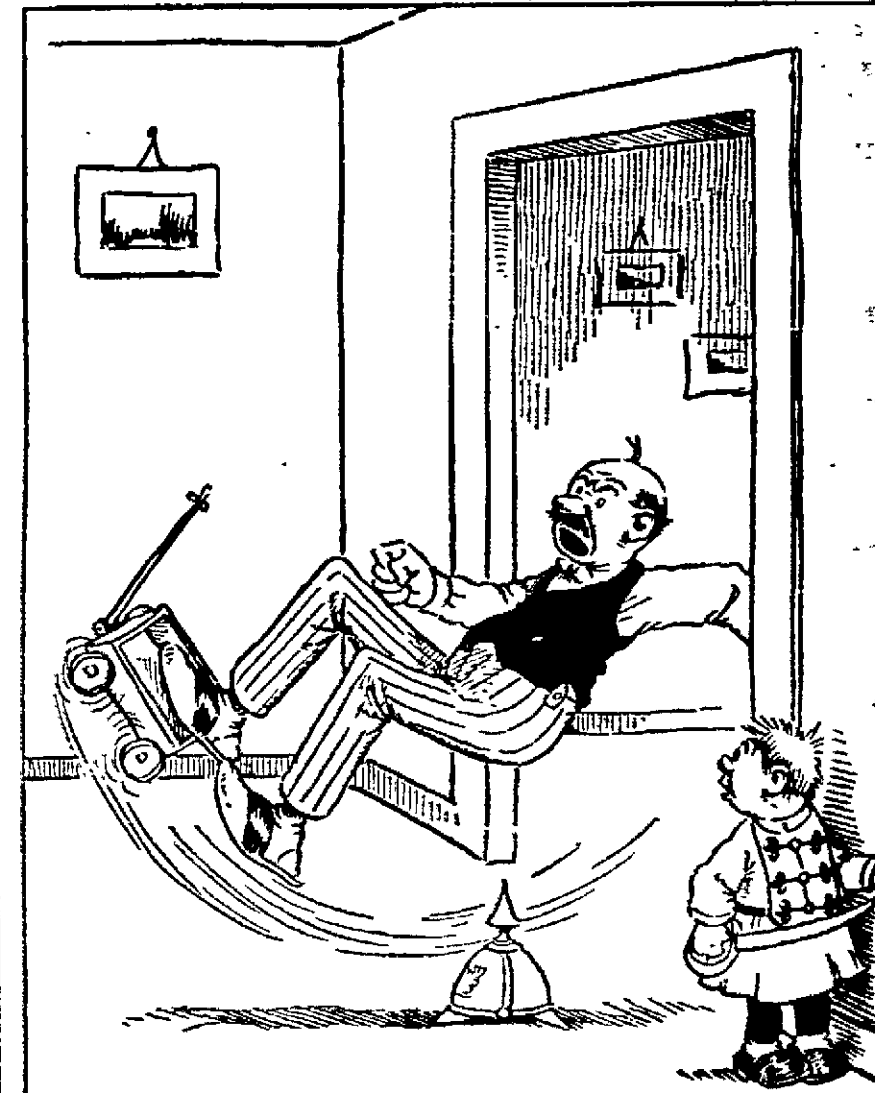

EVERYDAY ETIQUETTE

"If my maiden name was Edith Belle Horton and I married a Mr. Moore would the correct initials to use on stationery be E. B. M. (Edith Belle Moore) or E. H. M. (Edith Horton Moore)?" asked Edith. "Married women usually sign their names using the husband's given name excepting in the case when she is desirous of keeping her maiden name also as in the case of Edith Horton Moore. Then she would use the monogram E. H. M. However, if she desires, she may also use the initial of her own second name and the monogram would then be E. B. M. It is considered best. I believe to use E. B. M." was her aunt's answer.

SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see it tongue is coated, then give this delicious "fruit laxative." Children love it, and it can not cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomachache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

PROGRESS

CLAIMED FOR RUSSIAN ARMY IN
OFFICIAL REPORT ISSUED
FROM PETROGRAD

Counter Attacks at the Bayonet Point
Forced Germans to Again Assume Defensive.

Petrograd, Feb. 5.—The general staff of the Russian army under date of Feb. 3, has issued a report of the fighting which reads as follows:

"In East Prussia, we are making progress by fighting our way along both banks of the river Scheschuppe in the vicinity of Lasdehnen to the east of Tilsit.

"On the left bank of the river Vistula, the fighting between Borjinnow and Wolaszylowicka has continued with extraordinary ferocity. The enemy has brought into the engagement compact masses of men. In the endeavor to penetrate our front, the Germans have here introduced into a sector of ten versts (about six miles). No fewer than seven divisions supported by 100 batteries of artillery. Certain divisions advanced on a front only one verst wide.

"Our counter attacks began the night of Feb. 3 and were immediately followed by a series of engagements at the point of the bayonet. We succeeded in compelling the enemy to assume the defensive. At a point near Borjinnow we took possession of two lines of German trenches and we drove the enemy out of Goumine. After desperate fighting, which had lasted two days, our troops entered Wola Szylowicka. The fighting here is still going on with desperate stubbornness, particularly around a neighboring distillery which was still in the possession of the enemy the night of Feb. 3.

"In the Carpathians the fighting continues along the front which is between the Dulka Pass and Mount Wyszkow. We advanced at a point near Svidnik, in the valley of the River La Borth, moving in the direction of Oujok. We took 2,000 prisoners and 10 machine guns.

"At Mount Tokholka and at Mount Beskid, our troops during the last few days have been confronting the enemy with a desperate resistance. They accepted no less than ten engagements at the point of the bayonet. On Feb. 3, we resolved to withdraw our soldiers from the mountain positions to other positions previously selected and organized by us. The offensive strength of the enemy in this vicinity is very considerable.

"The offensive operations of the enemy in the vicinity of Mount Wyszkow have been repulsed with the infliction of heavy losses."

ELECTROCUTION OF TWO CHINESE FOR A HOMICIDE

Ossining, N. Y., Feb. 5.—Lee Dock and Eng Hing, two Chinese, were put to death in the electric chair at Sing Sing prison early today. Both Chinese were members of the Hip Sing Tong. They were convicted of the murder of Lee Kay, the aged leader of the On Leong Tong. The murder occurred on February 17, 1912, during a Tong war in New York and followed the murder of Hip Poo Sing, a Hip Sing member.

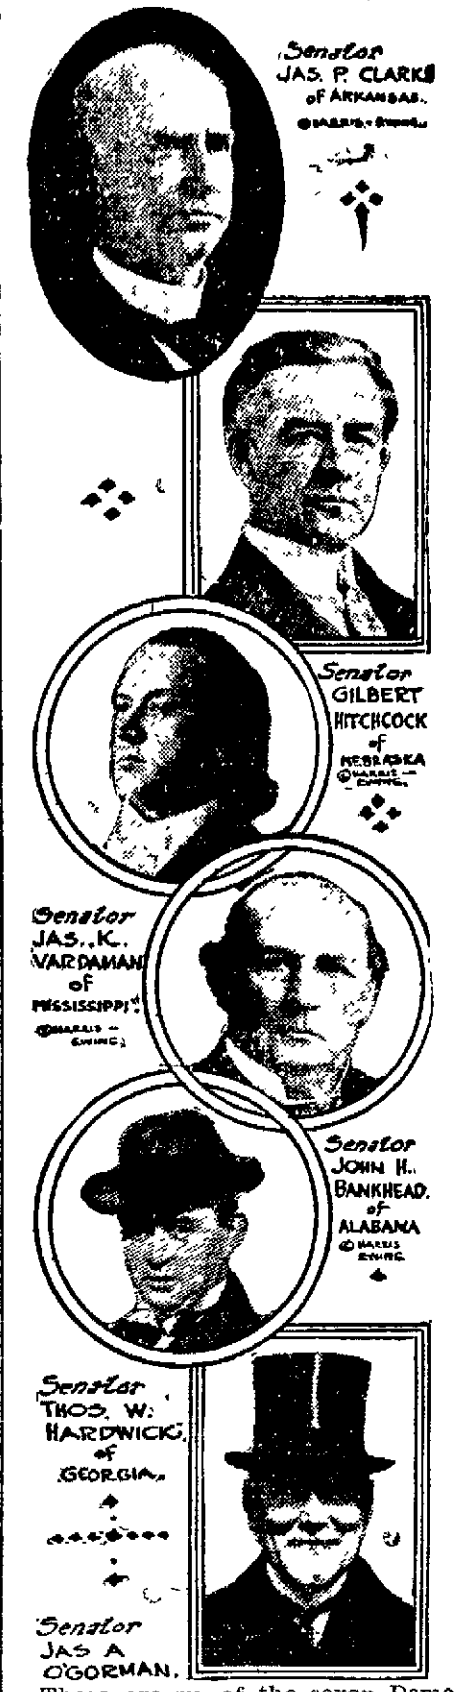

Dandruff Soon Ruins The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Democratic Senators Fighting President On Shipping Bill

These are six of the seven Democratic senators who have rebelled against the shipping bill President Wilson and his administration have been trying to put through for several days: James P. Clarke, Ark.; Gilbert M. Hitchcock, Neb.; James K. Vardaman, Miss.; John H. Bankhead, Ala.; Thomas W. Hardwick, Ga.; James A. O'Gorman, New York.

Most of them were opposed to the government going into the merchant marine business at all. In the first part of the week considerable pressure was brought to bear on them by friends of the president.

The fight of these senators was the first important contest in which President Wilson had engaged with the members of the upper house. The feeling against him there, it has been claimed by political enemies, has been growing ever since he nominated for federal offices politicians in various states over the heads of the senators representing these.

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapiesin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves, sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapiesin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapiesin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

Newark Man Is Freed By Court at Wheeling, W. Va.

William A. Welch, a Newark man, charged in the United States court with violation of the Mann white slave act, was freed at Wheeling, W. Va., Wednesday, by a decision of the United States Circuit Court of Appeals. He was charged with taking Mary Forbes from Barnesville to Wheeling for immoral purposes. He was found guilty in the United States District court at Wheeling and appealed the case to the higher tribunal. The decision reversing the judgment of the district court, was announced Wednesday.

YANKEES REPORT MAR. 1.

(Associated Press Telegram.) New York, Feb. 5.—Manager Donovan of the New York Yankees today sent out notices to all his players to report at the training camp at Savannah, Ga., on March 1.

The sale of Outfielder Hugh H. and Firstbaseman Pipp to the Yankees, was completed yesterday and it was stated that President Kavin, of Detroit, received about \$5000 for each player.

NO MORE ACHING LAME BACKS!

When it's hard to straighten up quickly and there's a "crick-in-your-back" and every joint and muscle in your body aches and you have that "don't care" feeling, ask your druggist for a bottle of Hoff's German Liniment. This famous, stainless, greasless, refreshing-odor liniment is made from the same formula as the doctors use with such success in Germany. It is pure and white as snow and it won't soil the finest clothes.

For 18 years Hoff's German Liniment has been the unequalled remedy for Rheumatism, Lamé Back, Neuralgia, Sore Throat, Cold on the Lungs, Cold in the Head, Bruises, Sprains, Aching Joints, Sore Feet, Corns, Bunions, etc. It can be taken internally for Colds, Coughs, Croup, etc. It is powerful and penetrating. Fine for children. Nothing like it in existence for stopping pain.

Made from white emulsion of camphor cream with pure, harmless, effective ingredients. Everyone knows the value of camphor for relieving pain, but its great drawback is that it leaves the pores open. Hoff's German Liniment keeps the pores closed—keeps colds out.

Sold in handy bottles by all druggists—a quarter pint for a quarter; large family size, 50c. Results absolutely guaranteed, or druggist is authorized to return your money without argument. Avoid disappointment by not taking "something just as good."

BAD COLD? GET RELIEF AT ONCE WITHOUT QUININE

You can end gripe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharges of nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

TURN HAIR DARK WITH SAGE TEA

Grandma kept her locks dark, glossy and thick with a simple mixture of Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair again, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we won't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Hair Remedy" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.

AMERICA SENDS ANTI-TOXIN.

(Associated Press Telegram.) New York, Feb. 5.—In a lecture last night before the Academy of Medicine, Dr. Mathias Nicoll Jr., announced that New York City is sending two million units of tetanus antitoxin to the warring nations in Europe. Enough of the cultures to immunize 250,000 of the belligerents has already been forwarded.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

When your back is sore and lame of lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints.

PRIEST FREED OF MURDER CHARGE

(Associated Press Telegram.) Chicago, Feb. 5.—The Rev. J. J. Mullen, former priest of the Church of Holy Rosary, who was acquitted of murder by a jury last night, told friends today that he intends going to the Precious Blood seminary—to which order he belongs—at Carthage, Ohio, and then enter a monastery to spend the remainder of his life.

The jury which acquitted him deliberated about five hours. The verdict was that Father Mullen was insane at the time he killed Thomas Patterson, postmaster at Hillsdale, Ill., but since has entirely recovered from the attack of insanity.

CARLISLE 1915 SCHEDULE.

Carlisle, Pa., Feb. 5.—The 1915 football and lacrosse schedules of the Carlisle Indian school were announced last night by the athletic authorities of that institution. The football team will play eleven games one less than last year. Cornell, Pennsylvania, Notre Dame and Syracuse have been dropped from last year's schedule while Harvard, Bucknell and Fordham have been added to the schedule.

TO REMOVE EVERY SIGN OF DANDRUFF

Try This Simple Home Treatment. It Surely Makes the Hair Soft, Fluffy and Lustrous

If your hair is not pretty, if it is losing color, too dry, matted, falling out, or if your scalp itches, you can quickly overcome all of these conditions at a trifling cost and only a few moments time. Just get from T. J. Evans or any drug counter, some Parisian Sage, a most helpful and invigorating tonic that supplies every hair need. It is easily applied, absolutely harmless and is as inexpensive as it is beneficial. Improvement begins with the first application. For Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft, fluffy and lustrous. It immediately removes every bit of dandruff and stops itching scalp.

Be sure to get Parisian Sage for there is no other so effective and this will surely give your hair new life and beauty.

Mrs. Kate Roe and Mrs. F. F. Van Voorhis.

At the reorganization of the board of trustees last night, Mr. Van Voorhis the retiring president of the board expressed his appreciation of the co-operation extended him by his fellow members and spoke of the pleasure his connection with the organization has given him in seeing the new hospital an accomplished fact.

LEFT HOME FOR BOSTON OFFICE, NOT TO RETURN

(ASSOCIATED PRESS TELEGRAM) New York, Feb. 5.—A nation-wide search has been inaugurated for Henry Clarke Coe, Jr., of Boston, who disappeared mysteriously on Saturday last, after leaving his home for the Standard Oil company's office in Boston, where he was employed. Coe is 22 years old, the son of Dr. Henry Clarke Coe, of New York and his family is prominent socially, both in New York and New England.

Thousands of circulars bearing the young man's picture have been sent to all parts of the country and Canada. No reason is known for his disappearance and his family fear foul play.

Young Coe was married last June to Miss Helen Ainslie, daughter of a well-known hotel man of Boston, New York and Florida.

EXPANSION

OF COMMERCE BETWEEN UNITED STATES AND ARGENTINA IS ADVANCED.

Prominent Men Address the Meeting of United States Chamber of Commerce at Washington.

(ASSOCIATED PRESS TELEGRAM) Washington, Feb. 5.—The need of immediate expansion in the commercial relations between the United States and Argentina was voiced by Ambassador Naon, of Argentina, in addressing the chamber of commerce of the United States today. He declared that as a result of the European war Argentina's imports of manufactures had been diminished fully \$160,000,000 and suggested that America ought to supply this demand.

Other speakers included Myron T. Herrick, former ambassador to France; Dr. E. E. Pratt, chief of bureau of foreign and domestic commerce and E. A. Filene, vice president International Congress of Chambers of Commerce.

FEW CHANGES ARE EXPECTED IN NEW FOOTBALL RULES

(ASSOCIATED PRESS TELEGRAM) New York, Feb. 5.—Few changes in the playing code are expected to be made by the football rules committee, at its meeting here today.

One suggestion is to move the goal posts ten yards further back to prevent the occasional jam against them that leads to possible injury. This change would mean that ten yards would have to be added to the drop kick to make it effective.

Another suggestion is that the punt-out after a touchdown be abolished, and that no matter where the score is made, the ball shall be put in play from the scrimmage on the 25-yard line.

A further attempt is expected to be made to incorporate the numbering of players in the rules.

NOT AN ISOLATED CASE

Many Similar Cases in Newark and Vicinity.

This Newark man's story given here is not an isolated case by any means; week after week, year after year, our neighbors are telling similar good news.

Richard Conley, 24 Bowers Ave., Newark, says: "Three years ago I had a lot of trouble from a bad case of kidney complaint. My back ached so severely that I found it hard to rest at night. I generally work in the garden and over-exerted myself. I felt all worn-out and had pains through my back. The kidney secretions passed too frequently, getting me up at night and if the secretions were allowed to stand, they deposited sediment. I took about six boxes of Doan's Kidney Pills, which I got at Crayton & Co.'s Drug Store and was well repaid with a lasting cure."

Had Lung Trouble and Expected to Die

The many cures brought about by Dr. Williams' Pink Pills are attracting wide attention. Read about this case.

"I am a 40-year-old man, and I was taken sick in November, 1908. I grew steadily worse. Had two consultations. The doctor said the fever had affected my lungs and that my case was hopeless. Only gave me two months to live. My physician had tried most all kinds of treatment and none did me any good. So he asked my husband if he objected to him trying a proprietary medicine. I began your medicine. I was in bed from November 30, 1908, until February 25, 1909, and was brought dying several times. Today I am healthier and stronger than ever. (Abbreviated.)"

Mr. James Phillips was in Newark Saturday.

The Stone Pile band meets at G. W. Hitchcock Hall each week for band practice.

Evangelist Charles E. Taylor of Salem, Ohio closed his meeting at the Stone church with seven accessions to the church.

There were forty-seven present at bible school Sunday with an offering of \$1.92. After bible school, Brother W. D. Ward gave a fine talk. Mr. R. C. Armentrout of Newark was here and taught class No. 2.

Rev. W. D. Ward will hold a week meeting which began Monday evening, February 1. Come and bring a friend. There will be room and welcome for all.

GRAY HAIR

Darkened—Stops Falling Hair—Promotes Its Growth—Look Young Again.

Q-Ban hair color restorer darkens gray, streaked with gray, faded or prematurely gray hair to natural color, making the hair dark, lustrous, soft, abundant, thick and beautiful. Also stops falling hair and promotes its growth. Is Q-Ban hair color restorer scalp? No. Will it injure hair or scalp? Impossible. Is it easy to apply? Yes. Apply like a shampoo to hair and scalp. Can anyone detect that I use Q-Ban? No, because Q-Ban darkens hair evenly and naturally, but your friends will observe that you look younger. Suppose that Q-Ban does not darken my hair or give me satisfaction. In that case do I get my money back? Yes, we guarantee it absolutely. Only 50c for a big 7-oz. bottle with directions for private home treatment of the hair. R. W. Smith, Newark, O. Out-of-town people supplied by mail.

SIN, GREATEST OF DETECTIVES, WILL STAY ON THE TRAIL

Last night Rev. F. W. Swift told of An Old Sleuth Who Never Lost a Case; the detective who is on every one's trail.

"Most frauds sooner or later are exposed. Nearly all murders are brought to light," said Rev. Swift, in opening his sermon last night. "Men may plot secretly and often their crimes are hid, but after the most insignificant thing bears witness to the crime." Continuing, he said, "Few criminals really escape. There is one detective who sooner or later brings every one to justice."

"Yes, you may be sure of that. Sin is the great detective that will reveal you. It will deliver you up to society and to God. I believe that every man has some sin that looms up above all others. A particular sin. A sin that fits our constitutional temperament. It is the sin against which we have the least power of resistance. Now the text says, 'Be sure your sin, that particular sin, will find you out.' That sin is on your trail. It is seeking to convict you. The victim of social evil is brought to premature decay. The gambler is brought to a dishonorable grave. The drunkard is tortured by delirium tremens. The shuggard is clothed with rags, and begs his bread. What is that but his sin finding him out."

"Your sin will find you out in your physical nature. Not in your early years of youth, but later on you will have to reap in your body what you have sown. In general terms, sin spells sickness, and holiness spells health."

"Your sin will find you out in your children. There was never a time when this conviction was as strong as today. We suffer inwardly and outwardly for the sins of our fathers. What an awful inheritance some parents are bequeathing their children. 'Whatever a man sows, that shall he also reap in his children.'"

"Your sin will find you out in your memory, which never loses anything. What a torment it will be when we are compelled to live over in memory our past sins."

"Your sin will find you out in your conscience."

"Your sin will find you out in eternity, before the judgment seat of Christ."

"What will you do about it? What is the remedy? There is only one hope, that is to turn on your sin, find your sin out, drag it into the light of day, confess it; for it is confess our sin. He is faithful and just to forgive us our sins."

During the sermon the audience sat spell-bound, and at the invitation several came to the front to forsake their sins and to enter the Christian life.

About 100 conversions have taken place thus far in the meetings.

"Who Has Committed It? What Can Every Other Sin Be Forgiven and Not This One?"

This is the subject for tonight at the Baptist church.

Make this Simple Test

Then decide, once for all, which match to use hereafter.

Take five—or ten—Safe Home matches, and an equal number of matches of any other brand.

Compare them as to length and strength

of stick, appearance, workmanship, anything you please.

Light one of the Safe Home matches. See how evenly it burns. See?

Shake it! It still burns. "Flick" it with your finger. It does not spatter. It does not sputter. The head does not fly off. Let it burn awhile until the stick catches. Blow it out! See? It is OUT and it stays out. There is no dangerous charcoal after-glow. The stick is impregnated.

Now light one of the other matches. Shake it! "Flick" it with your finger. Blow it out! Well—?

NEW WAR ZONE NOT TO IMPEDE U. S. SHIPPING

DECLARATION OF GERMANY
WILL NOT PREVENT VES-
SELS FROM SAILING

In Berlin the Act is Considered a
Practical Blockade of Entire
English Channel.

Associated Press Telegram
New York, Feb. 5.—That the Ger-
man admiralty communication ac-
cording the waters around Great Brit-
ain and Ireland, including the entire
English channel, a war zone, after
Feb. 18, would have no effect on the
movements of steamships between
New York and British and French
ports, was the general opinion ex-
pressed by representatives of ship-
ping companies in statements made
public today.

Almost without exception it was
announced that there would be no
suspension of sailings after Feb. 18.
By some agents here it was admitted
that there was a possibility of serious
risk, but no one was inclined to
believe that there was anything in
the present situation which would
call for diplomatic action by the
neutral governments.

SATISFACTION IS FEELT IN GERMANY.

Associated Press Telegram
Berlin via London, Feb. 5.—The
entire German press greets with sat-
isfaction the admiralty's declaration
that the waters surrounding Eng-
land, Scotland and Ireland have been
included in the war zone. The head-
lines of several papers speak of the
announcement as a blockade. The
Post declares it is a blockade and
must so be considered.

The Lokal Anzeiger declares Eng-
land's own weapons are being turned
against herself and when Ger-
many destroys the English yoke
from which the world has suffered
for centuries, it will have accom-
plished a high historical mission and
freed the world from one of its most
dangerous enemies.

The Tageblatt says England's con-
duct to which the new decree is an
answer, had been an admission it
could not defeat Germany with weap-
ons which Germany realizes are not
inconsiderable.

LONDON NEWSPAPERS BITTERLY COMMENT.

Associated Press Telegram
London, Feb. 5.—"The pompous
decree threatening sudden death to
all who venture to approach the
British coast adds nothing to what
our enemy has done or has attempt-
ed to do since the beginning of the
war," says the Westminster Gazette
today, in commenting on the an-
nouncement of the German admiralty
made public yesterday, which de-
clares the seas around Great Brit-
ain to be a military area. The West-
minster Gazette generally reflects the
views of the British press.

"The same effort for the past five
months," the paper continues, "has
been made continuously against our
warships and transports with results
that have been almost nil. From the
military point of view, if the Ger-
mans turn from legitimate war to
the threat of piracy, it is merely be-
cause in legitimate war they hith-
erto have no success. The use of sub-
marines against British merchant-
men will no more induce the govern-
ment to scatter the fleet for sup-
posed security against these sea-
raiders than did German mines and
Zeppelins or the raids on undefend-
ed coast towns."

The Westminster Gazette infers
from this German announcement
that the German people are suffering
more from the pressure of our sea
power than we hitherto have real-
ized."

Some Pessimistic Statistics.
Estimating the world's population as
1,500,000,000, the whole human race at
present living could stand comfortably
shoulder to shoulder in an area of 500
square miles.

Taking the number of generations in
the past 6,000 years as 200, the room
taken by them all on the above plan
would only be half the size of Ger-
many, or less than the area of the state
of Colorado. To bury all the people
on earth would require a graveyard a
little larger than that area.

If the dust left by each body be es-
timated at one-tenth of a cubic yard,
which is a liberal estimate, it would
cover only forty square miles to a
depth of about three feet. This cer-
tainly seems insignificant. It is pointed
out, compared with the great coral
reefs and other immense deposits built
up by the shells of tiny mollusks.—

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards'
Olive Tablets

That is the joyful cry of thousands since
Dr. Edwards produced Olive Tablets, the
substitute for calomel.

Dr. Edwards, a practicing physician for
17 years and calomel's old-time enemy, dis-
covered the formula for Olive Tablets while
treating patients for chronic constipation
and torpid livers.

Dr. Edwards' Olive Tablets do not con-
tain calomel, but a healing, soothing veg-
etable laxative.

No graining is the "termite" of these lit-
tle sugar-coated, olive-oiled tablets. They
cause the bowels and liver to act normally.
They never force them to unnatural action.

If you have a "back break" or a "mouth
and then a bad breath—adults feel better
—sick headache—torpid liver and are con-
stipated, you'll find quick, sure and only
pleasant results from one or two little Dr.
Edwards' Olive Tablets at bedtime.

Thousands take one or two every night
just to keep right. Try them. 10c and 25c
per box. All druggists.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg
Breast Tea, or as the German folks
call it, "Hamburger Brust Thee," at
any pharmacy. Take a tablespoonful
of the tea, put a cup of boiling water
upon it, pour through a sieve and
drink a tumbler full at any time. It
is the most effective way to break a
cold and cure arip, as it opens the
pores, relieves congestion. Also
loosens the bowels, thus breaking a
cold at once.

It is inexpensive and entirely veg-
etable, therefore harmless.

GOOD JOBS

ON STATE TAX COMMISSION AS
REORGANIZED GIVEN BY
GOVERNOR WILLIS

J. H. McGiffert, Cleveland, and Jas.
Boyle, Columbus, Get Posi-
tions Paying \$5,000.

Associated Press Telegram
Columbus, Feb. 5.—Governor Wil-
lis today reorganized the state tax
commission by the appointments of
James H. McGiffert of Ashtabula for
a term of six years and James Boyle
of Columbus, for a term of two years.
The appointments are accomplished
by the ending of the tenures now
held by F. E. Munn and Christian
Pabst, of Butler county. Boyle was
private secretary to Governor Mc-
Kinley and later was made consul at
Liverpool, England by President Mc-
Kinley. The salary of state tax com-
missioners is \$5,000.

Mistakes of Bible Makers.
A book compiled by Nathan Haskell
Dole recounts some of the mistakes we
make in supposed historical facts, in
quotations, in pronunciation and the
like. It has many bits of out of the
way information, including the follow-
ing:

In the English rendering of Ruth iv,
7, 8, it reads: "A man plucked off his
shoe and gave it to his neighbor: and
this was a testimony in Israel. There-
fore the kinsman said unto Boaz, Buy
it for thee. So he drew off his shoe."
The Hebrew word nagal is said to
mean sandal only when it is followed
by regli, the foot. When it stands by
itself it means glove. The German
word glove illustrates this, for hand-
schuh means "handshoe." Therefore
the token given in the passage cited
was really a glove.

The passage from the New Testam-
ent "Be ye, therefore, wise as ser-
pents and harmless as doves" should
read "simple as doves" as the Greek
word really means unmisled, therefore
guileless.

"Evil communications corrupt good
manners" probably was cited by Paul
as an already familiar proverb, for it
was written by Meander, the Grecian
comic poet.

Great Inventions Are Rare.
Invention to some extent resembles
mining. Thousands of miners plod
wearily through the mountains and
valleys searching for precious metals
or outcroppings of ore. One among
thousands strikes the big bonanza.
About 800 patents are issued every
week by the United States patent of-
fice. Only one in many years is for
something startlingly new and mean-
ing millions of dollars to the inventor
or the people who may gain control of
it. Only about one inventor in every
hundred secures a monetary return
which will equal the cost of the inven-
tion and patent. Of the 40,000 or 50,-
000 patents issued every year there are
few which are of such importance as
to attract widespread attention, and
only at long intervals is there an in-
vention which revolutionizes condi-
tions, such as the telegraph, telephone,
the phonograph, typesetting machines,
wireless telegraphy, aerial navigation
and moving pictures.—Arthur Wallace
Dunn in Leslie's.

Grateful Scots and the Bagpipes.

What Scot ever called the pipes a
musical instrument? asks Harper's
Weekly. In the old wicked days bands
of predatory English marched over the
border. They were as bold and sturdy
as the Scots and far greater in num-
ber. Cluny MacWhauppert, the laird
of Glenarramoy, in desperate need
of a sure defense invented the pipes in
secret and never let a skirt out of
them till he faced the invading Sas-
senach on the bloody field. Then
Cluny blew a melody so fierce, so
eldritch, so grinding and blistering to
the soul, that every clansman ripped
and slashed his way through the Eng-
lish hordes, intent on only one thing,
to escape the fendish screeching of
the pipes. And that is why every
grateful Scot to this day cherishes the
bagpipe, the preserver of Scottish in-
dependence. He has beaten his sword
into a plowshare, but he will always
uphold the pipes to beat the band.

Jeremy Bentham's Skeleton.

The late Archdeacon Colley in leav-
ing his body to the Birmingham uni-
versity to be anatomized was not so
original, says the London Sphere, as
Jeremy Bentham, who left his body to
University college, London, for the
same purpose, but arranged that it
should not be buried afterward, but
kept there. You may see the skeleton
there to this day wearing its clothes
as in life, the face all dried up. Ben-
tham even went so far as to advocate
the embalment and preservation of
illustrious human beings in this way
as being more truthful than statues.

Chance is blind and is the sole au-
thor of creation.—J. N. B. Saintime

GERMAN TROOPS ARRIVE TO AID OF HUNGARIANS

Associated Press Telegram

Venice, via London, Feb. 5.—Dis-
patches from Vienna state that 20,000
German troops have arrived in Hun-
gary on the way to Korosmezo, in the
Carpathians, to assist Hungarian
forces said to be threatened with en-
velopment by the Russians.

Austrian forces, dispatches say,
have attacked the Russian left flank
at Jacobeni, in Southern Bukovina,
forcing the Russians to retreat to-
wards Radautz.

It is stated also that an Austrian ad-
vance guard has been annihilated in
Uzsox Pass.

Continuation is given the report
that 200,000 German troops are being
sent from Poland to assist in attempt-
ing the relief of Przemysl.

BROWNSVILLE GRANGE

Brownsville banner Grange No.
1733 held its regular meeting
Jan. 23. The regular business was
transacted in the morning session.
The ladies served lunch at 12
o'clock. After dinner the officers
for the ensuing year were installed
in a very impressive manner by
Brother Lorain Dushimer, past
master of Franklin Grange, after
which Brother Dushimer gave a

WHAT SCIATICA IS

There is something terrifying about the
word sciatica. Yet sciatica is nothing
but neuralgia of the sciatic nerve and
neuralgia is an inflammation caused by
lack of nourishment.

Application of dry heat as hot sand
bags or flannel to the course of the in-
flamed nerve often quiets the pain but it
does not feed the nerve. It is temporary
relief, a good thing to know about, but
not a remedy.

What causes the nerve starvation that
results in neuralgia and sciatica and how
may it be corrected?

The most common cause is a run-down
physical system and a frequent exciting
cause is exposure to cold. Thin blood is
often at fault. It is through the blood
that the nerves get their nourishment.
Mortal man knows of no other way of
getting nourishment to a nerve. There-
fore when the blood gets thin and fails
to feed the nerves they show their resent-
ment by becoming inflamed. Try Dr.
Williams' Pink Pills at this stage and
see how the inflammation subsides as the
enriched blood carries to the starved
nerves the elements they need.

Write the Dr. Williams Medicine Co.,
Schuetteville, N. Y., for a copy of the
booklet "Nervous Disorders, A Method
of Home Treatment." Your own druggist

A tree-ripened Florida Grapefruit is a Breakfast in itself.

Florida grapefruit is all nourishment—the kind of wholesome food-drink that supplies energy for young and old. The juice from one of these large and mellow globes is a breakfast in itself—it will tone the system and make you fit for the day. In thousands of homes, tree-ripened Florida grapefruit are served to each member of the family. Grapefruit is a delicious tonic for jaded nerves, keeps the muscles toned and tingling and the eyes clear and gleaming.

Grapefruit That is Fully Ripe

Only tree-ripened grapefruit are good. The Florida Citrus Exchange is a co-operative non-profit making association of grove owners, who are pledged to leave their fruit on the trees until it is wholly ripened. When you buy grapefruit with the red mark of the Exchange on the boxes and wrappers you may know that it is ripe, juicy and full flavored—worth all it costs.

Fruit Untouched by Human Hands

In the groves and packing houses of the members of the Florida Citrus Exchange no hands touch the fruit. It is picked, packed and shipped by white gloved workers. No child labor is employed in any Exchange packing house. Florida's oranges are of the same surpassing quality as her grapefruit—juicy, sweet and spicy beyond comparison. Try them this season.

Stores in almost every community sell Florida Citrus Exchange fruit in season. Your dealer will get this fruit for you if you insist that he do so.

very interesting talk on Grange work.

The officers are as follows:
Worthy master, Byron Lawyer;
worthy overseer, T. F. Hamilton;
worthy steward, C. T. Winegarner;
worthy assistant steward, Ray M. Redman; worthy chaplain, Helen McMullen; worthy treasurer, J. A. Mack; secretary, F. L. Orr; gate keeper, Herman Loughman; Ceres, Florence Winegarner; Pomona, Eva Liden; Flora, Ruth Cooperdier; worthy day assistant steward, Hazel Gutridge.

The interest taken in this Grange is mostly due to the master, Brother Lawyer, as he is a tireless worker in Grange and educational work. He has been instrumental in assisting in the organizing of several new Granges in this and adjoining coun-
ties.

Next regular Grange meeting Feb. 23. A good program is arranged for this meeting.

Bound to Misery.

Volvia's Wife Dead.

Waukegan, Ill., Feb. 5.—Miss Mollie Steele Volvia, 44, wife of Wilbur Glenn Volvia, general overseer of the church founded by John Alexander Dowie, died today at her home in Zion City.

The Pleasures of Obscurity.

It is apparent from this anecdote, printed in the New York Sun, that a story, although 2200 years old, can still be fresh and amusing. It is a personal anecdote of Chuang Tzu, a brilliant Chinese writer and philosopher of the fourth century B. C. Chuang Tzu was fishing in the P'u river when the Prince of Ch'u sent two high officials to ask him to take charge of the administration of that province. Chuang Tzu went on fishing and, without turning his head, said: "I have heard that in Ch'u there is a sacred tortoise that has been dead some 3,000 years and that the prince keeps this tortoise carefully inclosed in a chest on the altar of his ancestral temple. Now, would this tortoise rather be dead and have its remains venerated or be alive and wagging its tail in the mud?"

"It would rather be alive," replied the two officials, "and wagging its tail in the mud."
"Begone!" cried Chuang Tzu. "I, too, will wag my tail in the mud."

Gossip and Furniture.

Besides his skill and taste as a cabinet maker and his fortunate judgment in adopting varied and sundry styles to the needs and wishes of his British patrons, Chippendale was a good business man and thoroughly understood the art of advertising as then practiced, the art, at least, of making himself liked and attracting a large and fashionable clientele—and a habitual clientele at that—to his shop in St. Martin's lane.
The belles and beaux as well as the great lords and haughty, swelling dowagers, were wont to gather there of a morning and were sure of getting what they sought, no matter whether it was furniture or gossip. Chippendale always made his patrons thoroughly welcome and comfortable, and his shop became to all intents a kind of club where all the court chat and scandal amid the metropolises were retailed and the engaging settings of chair "in the Gothic taste," "Chinese sofas," Louis Quinze secretaries and the like—Suburban Life.

MRS. E. C. COPPER FIRED A BULLET INTO HER BRAIN

DEAD BODY FOUND BY HUSBAND LYING IN THE BACK YARD OF THEIR HOME

Had Made Deliberate Plans to End Her Life—Probably Temporarily Insane.

Mrs. Mary Bell Copper, 46 years old, wife of E. C. Copper, well known B. & O. railroad man, committed suicide Friday morning at her home, 50 North Morris street, by firing a 22-calibre revolver bullet into her brain. Her body was found by her husband an hour or more after the act was committed, lying in the back yard about 15 feet from the back door.
It is evident that the woman was suffering from temporary mental derangement due to ill health. She made deliberate plans for self destruction, having gotten up much earlier than usual and changed her night clothing. She slipped on her shoes, left the house quietly and walked into the back yard where she fired the shot.
The bullet entered the head just back of the right ear, passed entirely through the brain. It was found lodged under the skin just back of the left temple. Coroner W. L. Jackson who examined the wound declared that death had been instantaneous.

Mr. Copper states that he was awakened shortly before six o'clock and that he missed Mrs. Copper at once. He made a search, found that she was not in the house, and then dressed and searched the neighborhood for her. Not being successful he notified the police department but before the investigation had proceeded very far, Mr. Copper again notified headquarters that her body had been found in the back yard.

Coroner Jackson gave permission for the removal of the body and it was taken in the Bazler & Bradley ambulance to the morgue where it was prepared for burial, later being removed to the home.
Mrs. Copper was born east of Utica in the old Bell settlement but has been a resident of Newark most of her life. Besides her husband she leaves two brothers, Sidney and William Bell, both living east of Utica. The funeral services will be private, and probably will be held in the home sometime Sunday, though no definite arrangements have been made. Burial at Cedar Hill cemetery.

Blood as Food.

Blood as an article of diet may seem somewhat gruesome, but it is in reality a very beneficial, and to the Masai, necessary food, as it serves as a substitute for salt, which they do not possess. The blood is obtained from their cattle, and great skill is shown in bleeding them. Their method is as follows: A ligature is placed above the spot selected for the incision, which is usually in the neck. The incision is made with a specially prepared arrow, which has a thick shaft to prevent overpenetration. The blood is usually drunk hot from the animal, but is sometimes mixed with milk.

If there is any man in Newark who has owned an umbrella—the same umbrella—for two years, would he kindly send his name and address to this office?

Effective February 1
Reduction No. 3
On Goodyear Tires
Making Total Reductions 45% in Two Years to Give Always the Most For the Money

We are glad again—for the third time in two years—to announce a big reduction on Goodyear tires, effective February 1st.

Goodyear policy on price is to give the utmost in a tire at the lowest possible profit. Our reductions are made to that end, without ever reducing the quality.

That always means, with our matchless output, more for the money than any other maker can give.

As rubber came down our prices came down. As our output multiplied, reducing factory cost, our prices came down with it. In two years our reductions—including the present—have totaled 45 per cent.

Last year we increased our output 26.6 per cent. A few days ago the embargo on rubber was modified so that supplies seem assured. The market price for rubber seems for a time established. Fabric costs less than last year. So, under our minimum profit policy, we announce this new reduction.

Only Fair Basis

We consider profit margin on a tire the only fair price basis. We keep that margin just as low as our line allows.

While we do that, Goodyear tires will always undersell any tires that compare with them.

BRYAN IS BUSY WITH SPEECHES TO INDIANANS

(Associated Press Telegram)
Indianapolis, Ind., Feb. 5.—William J. Bryan, secretary of state, put in a busy day at speechmaking yesterday, but today's program is even more strenuous. Mr. Bryan is scheduled to make five addresses and also plans to attend a luncheon and a reception. His address tonight on "The Railroads Relation to the business world," at the Transportation club dinner, is expected to be the most important of the eight he will have made when he completes his two days' visit to Indianapolis. John Barrett, director-general of the Pan-American Union, and Rev. John Cavanaugh, president of Notre Dame university, also will speak at the dinner.

PLYMOUTH CHURCH CALLS NEW PASTOR, REV. GROVER DIEHL

Wednesday evening, February 3rd, at a regular business meeting the Plymouth Congregational church of this city extended a unanimous call to Rev. Grover L. Diehl to become its pastor. Rev. Diehl has accepted and has commenced his work.

Rev. Diehl is a graduate of West Lafayette college, received his professional degree from Oberlin college in 1908; and has spent the past year in post-graduate work in Yale University.

Rev. Diehl was for three years pastor of the historic church at Wakeman, O., as the successor of such men as the Rev. Jesse Hill, D. D., recently of Williston avenue church, Portland, Me., and Dr. C. C. Creagan, President of Fargo College. For two years he was pastor of the Collinwood Congregational church, Cleveland, O., following Rev. Luman H. Keyce, now superintendent of the Cleveland Congregational Union.

Rev. Diehl is 30 years of age, vigorous and wide awake on all lines of public interest as well as deeply interested in the spiritual life of young and old. He is ready to welcome all conscientious Newark men into his friendship and association and will be only too glad to co-operate to show the hand of mercy to the fallen and in every way to make Newark a better city.

THEORY AND FACT INCURABILITY OF BRIGHT'S DISEASE

Professor Tyson in his work on BRIGHT'S DISEASE says: "As to special curative measures . . . directly diminishing Albumenuria, I believe there are none."

Old beliefs are tenacious. But no matter how venerable and sacred, theory must give way to fact. From a safe full of evidence we take the OFFICIAL figures in a recent test case the analysis being made by one of the most noted analysts in this city:

Jan 16 Albumen 2.700 gms (24 hrs.)
Jan 28 Albumen .465 gms (24 hrs.)
Reduction in 12 days nearly 80 per cent.

This case was in extremis and the treatment was prescribed too late but in the face of the testimony of analytical chemists what becomes of the old dictum that there is no agent that reduces albumenuria? Lamarck has truly said the great difficulty is not in discovering but in getting the acceptance of new truths. But the light is spreading.

The ability of Fulton's Renal Compound to "diminish albumenuria" in many cases of Bright's Disease is not a theory but a FACT IN PHYSICS to prove which we will mail formula for albumen test that will show the percentage from week to week. As the albumen declines improvement commonly follows. recoveries having been reported in thousands of cases. Formula and literature sent on request. John J. Fulton Co. San Francisco. Frank D. How Thin People Can Put On Flesh

A New Discovery.

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true in this folk the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction. Cut out the foolish food and fast, say sandust diet. Omit everything but the meals you are eating now and eat with every one of those single Sargol tablets. In two weeks note the difference. Five to eight good solid pounds of healthy "stay there" fat should be the net result. Sargol charges your watery, stagnant blood with millions of fresh new corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, too mixes your food and prepares it for the blood in easily assimilated form. Thin people can all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of one of the best flesh-producing elements known to chemistry. They come in 40 tablets to a package, are pleasant harmless and inexpensive and all druggists in Newark and vicinity sell them subject to an absolute guarantee of weight increase or money back.
